

## Every Name Index to the 1880 U.S. Census, Population Schedule, for Pickens County, Georgia

© 2004 Linda Woodward Geiger. All Rights Reserved

The 1880 U.S. population Schedule is the first in which relationships between members of the household and head of house were enumerated. This is, also, the first census in which the soundex (an indexing system) was designed to help locate families. The Work Projects Administration (WPA) prepared the 1880 Soundex, which was developed to identify individuals who would be eligible for Societal Security. Consequently, only families having at least one individual age ten or less were identified by the soundex. When we don't find an individual for whom we are searching in the 1880 soundex, we must go to the census pages for their residence location and search page by page until we find them. Since this research does a great deal of work with the families of Pickens County, Georgia, it seemed prudent to construct an "Every Name Index" to the 1880 federal census for Pickens County. It is hoped that some readers of the *Georgia Genealogical Society Quarterly* will also find this index useful.

Pickens County was divided into four enumerations districts each enumerated by a different individual, Jas. I. Coleman (ED #162), E.J. Allred (ED #163), J.D. Faulkner (ED #164) and B.H. Simmons (ED #165). The enumeration by Mr. Coleman is very difficult to read in that the writing is very faint and sometimes nearly impossible to read – one might wonder if he "watered" down his ink. On the other hand, the enumerations by E.J. Allred and B.H. Simmons are extremely clear. As with any other census, readers will find a wide variations of spellings and the user must be ever vigilant. The spellings of names in this index are as true as possible to spelling located in the actual document.

What are the rewards of viewing the actual entry on the microfilm for the 1880 census? Commencing with 1 June 1880 (individuals born after that date or died prior to that date were not to be included) the following questions were asked of every member of ever household (7,262 individuals):

- Name
- Race-white, black, mulatto, Indian, or Chinese
- Sex
- Age last birthday
- Month of birth if born within the year
- Relationship to the head of house
- Whether single, married, widowed, or divorced
- Whether married within the year
- Profession, occupation, or trade and number of months unemployed
- Name of state, territory, or country of birth;
- Name of state, territory, or country of birth of each parent
- School attendance within the year
- Whether unable to read if age ten or older
- Whether sick or temporarily disabled on the day of enumeration and if so, reason
- Whether an individual was blind, deaf-mute, "idiotic," insane, or permanently disabled

The 1880 Pickens County Population Schedules are National Archives micropublications T9, reels 160 and 161. The end of reel 160 contains the enumeration of the Truckwheel District (pages 493-500) and the remaining districts (Talking Rock, Cross Roads, Persimmantree, Jerusalem, Dug Road, Townsends, Town [Jasper], Sharp Top, and Grassy Knob) are located on reel 161.
